SYSTEM **KAN-therm** - PRODUCT CARD

SYSTEM **KAN-therm** Press

Press wallplate angle tee, with steel sleeve,
short plastic plug and fixing bolt

Description of the product:

Element ends hot and cold water installation – enables washbasin and bathtub assembly. It is often used to connect radiators. To seal connections use tow with sealing compound. Elbow is equipped with plug and fixing bolt. Element is made of brass and enables continuation of installation.

Attention: Due to necessity to vent installation before the pressure test, plugs are not screwed tightly – (connection doesn't guarantee tightness).
